(Note: column labeled "DO NOT ARRIVE ON CAMPUS BEFORE 8:30 A.M." appears in the 8:00 column.)

Zoom connection information for the Coach Meeting will be published later in the week.

Shake, Shake, Shake … Out At the Contest, there will be a practice session – each team will be given a check-list of tasks to perform to test the environment. This is a very important task for both contestants and the contest staff. Teams get to make sure their workstations and connections are working, and the contest staff gets to make sure things are in place from their end.

Please be sure you arrive in time (but not before 8:30 a.m.) to participate in this activity.

For anyone who missed the Warm-Up/Rehearsal, or wants to spend additional time in the contest environment, you can still practice with the appliance. An Open Practice contest will be running unattended from Monday morning until mid-day on Friday at the same web site. The same problems will be available for practice, with DOMJudge auto-judged decisions. Kotlin will be available.

COACHES: Editing has been turned off so the Registrar can print badges, lists and other contest materials. If you have a necessary change, please send information to the Registrar.
