How many teams may one school send? ICPC rules do not specify a limit. Physically, we are limited by the number of workstations available at the site. Based on history, we approve the first three eligible teams after registration closes (Feb. 12). We approve additional eligible teams once late registration closes (Feb. 17), on a round-robin basis (all team 4s; then all team 5s, etc.) Coaches: if you have a particular order of precedence for approving teams, let the Registrar know. (You need do nothing if you entered them in your preferred order; i.e., the first team you entered should be approved first; the second team should be approved second, etc.)
